SUMMARY

IT Auditor with hands-on experience conducting IT risk assessments, evaluating IT general controls (ITGCs), and developing BSP-aligned audit programs within a regulated banking environment. Skilled in audit fieldwork, working paper documentation, corrective action tracking, and process compliance review across SDLC and change management workflows. Holds ISC2 Certified in Cybersecurity (CC) credentials, with foundational knowledge of ISO 27001, NIST, and COBIT frameworks.

EDUCATION

HOLY ANGEL UNIVERSITY Angeles City, Pampanga
Bachelor of Science in Computer Science 2021 – 2025
Cumulative GWA: 1.21; Summa Cum Laude
Relevant Coursework: Data Analysis, Software Development, Operating Systems, Algorithms, Artificial Intelligence, Machine Learning, Blockchain, Automata, Database Management, Information Security, Cloud Computing, Network Basics

WORK EXPERIENCE

IT AUDITOR Angeles City, Pampanga
Porac Bank, Inc. May 2025 – Present

- Conducted IT risk assessments on key banking systems, including core banking, email servers, and communication platforms.
- Developed and maintained IT audit programs in alignment with Bangko Sentral ng Pilipinas regulations.
- Conducted audit fieldwork evaluating IT general controls (ITGCs) such as access controls, data backup, change management workflows, and logical security assessing compliance with internal standards and BSP governance requirements.
- Identified process compliance gaps through risk-based analysis and recommended corrective actions; monitored remediation effectiveness and reported findings to stakeholders and leadership to strengthen IT governance posture.
- Executed audit planning, fieldwork, and follow-up across multiple auditable units, validating SDLC process adherence, release workflows, and QA gate criteria at each project phase.
- Prepared audit reports with categorised findings (High, Medium, and Low), working papers, and corrective action plans; tracked remediation timelines to closure for internal stakeholders and BSP regulatory compliance.

FULL STACK DEVELOPER INTERN Clark Freeport Zone, Pampanga
Clark Outsourcing Dec 2024 – Mar 2025

- Contributed to the development and maintenance of the company's HRIS web application.
- Utilized Angular for frontend development, creating dynamic and responsive UI components.
- Implemented backend functionalities using Lumen Laravel to support data management and user operations.
- Managed MySQL database operations, ensuring efficient data storage and retrieval.
- Debugged and resolved issues across both frontend and backend environments to enhance application performance.
- Collaborated in testing APIs using Postman, ensuring proper integration between frontend and backend.

PROJECTS

AI-Driven Audit Risk Assessment and Audit Documentation Workflow Automation using Google Colab 2025

- Built an AI-powered audit workflow automation system: (1) an LLM risk assessment engine that evaluates audit scopes against impact/likelihood matrices with automated finding prioritisation (HIGH/MEDIUM/LOW); and (2) an intelligent report generator that converts audit fieldwork findings into executive-ready narratives for Audit Committee presentation.

KAuth: Counterfeit Detection Application for Philippine Peso Banknote using Image Processing through Convolutional Neural Network 2025

- Developed a mobile application using Flutter and Dart to detect counterfeit Philippine peso banknotes.
- Integrated TFLite for the deployment of a deep learning model, leveraging the Xception Convolutional Neural Network (CNN) architecture for accurate banknote classification.

SKIMATA: Web Application for Visualization of CPU and Memory Management Algorithms 2024

- Co-developed a web application that visualizes various CPU and memory management algorithms, contributing specifically to the implementation of the Non-Preemptive Priority CPU Scheduling Algorithm.
- Utilized JavaScript, HTML, and CSS to build both the frontend interface and backend logic, providing an interactive and educational tool for understanding system processes.

SKILLS

IT Audit: IT General Controls (ITGC), Process Compliance Auditing, Audit Fieldwork & Documentation, Corrective Action Tracking, Risk-Based Audit Methodology, SDLC Compliance (Agile/DevOps), Change Management Review, BSP Regulatory Compliance
Frameworks: ISO 27001, ISC2 CC, CIS Benchmarks, NIST, COBIT
Security & Compliance: VAPT Monitoring, Vulnerability Management, Logical Security Controls, CyberOps
Tools: Jira, Postman, Git, Google Colab, Python
Development: Full Stack (Angular, Laravel, MySQL)

CERTIFICATIONS

Certified in Cybersecurity 2026
International Information System Security Certification Consortium, or ISC2

Information Systems Auditing, Controls and Assurance 2025
The Hong Kong University of Science and Technology

CompTIA Security+ 701 2025
Infosec

Developing AI Applications with Python and Flask 2025
